Verein für Studentisches Wohnen - WoVe

Information on the Procurement of Furnished Rooms / Apartments

In your search for an apartment or a room you arrived at WoVe. Hence we bid you welcome warmly and would like to provide you with some basic information about us:

WoVe is a non-profit organisation with the aim to procure rooms and apartments for people enrolled in programmes involving education, training and development. We are subsidized by the University of Basel, the University of applied Sciences and Arts Northwestern Switzerland and the "Gesellschaft für das Gute und Gemeinnützige". We procure rooms to anyone enrolled in a recognized programme of formation in the area of Basel. For that purpose, we rent apartments and houses from their owners and sublet them. Doing so, we strive to provide accommodation to as many entitled persons as possible. All rents published by WoVe always include all related expenses such as heating and energy costs. More detailed information concerning our offers can be found on www.wove.ch.

In case you are looking for a furnished apartment or a room in a private household, as you stay in Basel only for a couple of months, and it is not possible for you to take care of the search by yourself this form is the first step on the way to your goal. With your application and payment of CHF 70.- you mandate WoVe to procure a room or apartment for you. If this procurement is not successful, WoVe refunds CHF 40.-. **If you do not react to offers or do not inform WoVe timely if this application voids, no reimbursement will take place.**

No-Show

In case WoVe prepares a rental contract for an person that has applied for a room, which is not accomplished, a fee of CHF 100.- comes due. Thereof the application fee is deducted.

We would appreciate it if you would inform us, in due course, in case you found any of the private room offers occupied already, and notify us about the one you rented yourself. This helps us to keep our lists updated and also assists others in finding an accommodation.
